

PATROLEYES

ADVANCED CLOUD STORAGE

PE-CLOUD

• **Unlimited File Storage**

Unlimited file storage for all of your body camera footage and evidence.

• **Secure Storage and Transfer**

Using TLS 1.2 and AES encryption we are able ensure your data is safe and can never be viewed without the proper authorization. Our solution is completely CJIS compliant.

• **Advanced Data Management**

Assign case IDs, tags and descriptions to any file. Data can be searched by file name, officer, case ID, custom tags and keywords.

• **Evidence Redaction**

Our built-in redaction platform features automatic detection and redaction of faces or objects from video files.

• **Advanced User Permissions**

Multiple user types with customizable permissions allows for the flexibility of users managing their own evidence, while keeping the evidence in a clear chain of custody without the fear of deletion.

• **Upload from Multiple Locations**

Upload evidence from a PC or your squad car using WiFi or your 4G cellular service.

• **Secure File Sharing**

Share evidence with your colleagues easily and securely using the built in sharing system.

• **File Verification**

Our system analyzes each file that is uploaded and assigns a unique SHA256 to allow users to compare file authenticity in case of attempted evidence tampering.

• **Retention and Automatic File Deletion**

Our system allows you to mark files that will need to be held for a custom set amount of time otherwise after a custom set time the files will be automatically removed.

Includes:

- Pricing includes 24/7 support
- Biweekly feature releases
